Branch General (Education)

Subject Aid to the Industrial school attached to the W M ~ orphanage at Jumkh

1 Rs 125 a month with effect from the 1st July 1904 (monthly grant)

11 Building grant (amount not stated)

At present there is an industrial school attached to the orphanage (Wesleyan mission) at Tumkur - A grant in aid of Rs 40 a month is being paid for it

Rev Mr D A Rees Supdt of the W mission proposes to Develop the Ind School and to make it more efficient by securing the services of a qualified European supdt on a salary of Rs. 300 a month

The mission undertakes to pay Rs 100 (Rs 1500) towards the ~~cost~~ pay of the Supdt and

12/88

and they expect Rs 125 x 12 = Rs 1500
from the Govt as aid, the remainder
it is stated will be raised locally

The grant will be required only
from the 1st July 1904 and what
is now required is an assurance
from Govt that the proposed grant will
be paid so that the mission authorities
may enter into negotiations for
securing the services of a European
supdt

It is also requested that assurance
may also be given for a building grant,
as the mission intends to make provision
for a bungalow and other accommodation
that will be required

Mission Industrial School,
Tumkur

Rev Mr Edwards conducted me round this School on Monda morning last and gave me all the information I asked for The School is an appendage of the Mission Orphanage, and at present has 30 pupils, all drawn from the Orphanage About 50 others have left it with training sufficient to enable them to earn their own livelihood The institution is said to be open to the public, but either through ignorance of this fact or from unwillingness to associate with Christian Orphans, the children of non-christian communities have not till now availed themselves of the advantages it offers

The workshop is a small one and its curriculum comprises carpentry, blacksmith's work and rope-making It is run on business lines and the methods adopted are much the same as those obtaining in ordinar private worksnops

The Mission now propose to import a properly qualified European Superintendent and to develop the School and its usefulness by the introduction of improved methods To this end, they apply for a grant of Rs 125 per mensem in addition to the monthly grant of Rs 40 now being given to the School The pay proposed to be given to the Superintendent is Rs 300 Mr Bhabha

supports the request The Mission undertake, in the event of the help sought for being granted, to admit applicants of all classes freely into the School and to give them skilled training, and further to give the students of the Government High School in a separate suitable building such elementary instruction in the subjects taught in the Industrial School as may be of use to them in after-life

The idea is a good one and accords with the sentiment expressed by the Dewan at page 20 of his Pasara Address for 1903 From what I have seen of the School, I am of opinion that much good will result both to the inmates of the Orphanage and to the public by the expansion of its usefulness in the manner proposed. and that therefore the additional asked for may be promised on the conditions mentioned above with effect from the next official year and provided for in that year's Budget

In addition to the grant, it may be necessary to offer inducements by way of scholarships to the children of artisans to avail themselves of the skilled training afforded in the institution This will compensate the parents for the temporary loss of the services of their children during the period of their training Those services, however small, are not without some value This subject may, however, be reserved for

future consideration

The Mission have at present not applied for a building grant and no orders on the subject are therefore now called for

C Jeremiah
30/1/04

To the Dewan

15566/1 2 04

3 - 4 06819 Papers - last type written orders pro- make some local enquiry if the institution is so much favoured even christians will fully avail themselves of it as alleged Mr Dy Com should be able to send a valuable report if however the Committee has made this enquiry and assured himself of it the matter need not be further investigated

2 II 04

Noted to 2d Cl
3/2/04

I have made local enquiries & am inclined to think that the institution will be freely availed of if as I have said in my note some little induce

- ment on the shape of scholar-
ship which is offered by Court.
The question of the extent to
which such inducements
might advantageously be
offered may be reserved for
further orders. An order
as directed by the Decree
may now issue. [illegible]

OFFICE OF INSPECTOR GENERAL OF EDUCATION IN MYSORE
Bangalore, 14th September 1903

From

H J BHABHA, Esq, Ma,
Inspector General of Education in Mysore

To

H V Nanjundayya Esq Ma, BL,
Secretary to the Government of Mysore,
General & Revenue Departments,
Bangalore

SIR

I have the honour to submit for the favourable consideration of Government an application from the Rev Mr D A Rees, General Superintendent of the Wesleyan Mission, for a monthly grant of Rs 125 from the 1st of July 1904 being part of the salary of a European Superintendent of the Wesleyan Mission Industrial School at Tumkur. This salary grant will be in addition to the monthly grant sanctioned for the school.

2 There is at Tumkur a Mission Orphanage established during the famine of 1877-78, and to this Orphanage has been attached from the very beginning an Industrial School which now gets a grant-in-aid of Rs 40 per month. A large number of boys have already been trained in the school as carpenters, blacksmiths, bricklayers &c and are earning their livelihood in various parts of the Province, and 68 boys are at present under-

training

3 With a view to develop the Industrial School and make it more efficient it is proposed to appoint a properly qualified European Superintendent on a salary of about Rs 300 a month, and the Mission undertakes to pay towards it a sum of £ 100 per annum If Government kindly agree to pay an equal amount of Rs 1500 a year, the remainder will be raised locally The School when reorganised will be open to all classes as at present and as the Mission compound adjoins the compound of the Government High School, there will be no difficulty in arranging for the students of the High School to spend certain hours daily in the Industrial School

4 Mr Rees does not require the grant before the 1st of July 1904, but wishes to have now an assurance of it that he may enter into negotiations for securing the services of a European Superintendent who was for some time Superintendent of the Wesleyan Mission Industrial School at Karur which is acknowledged to be the best Industrial School in Southern India. He also wants the assurance now as he has to make provision for a bungalow and other accommodation that will be required.

I have the honour to be,
Sir,
Your most obedient servant,
H Bradna
Inspector General.

---

With reference to the above has the honour to request that the DI will be so good as to submit a report

On the following points —

(1) What are the subjects now taught in the school?

(2) What is the quantity and value of tools and of implements etc. provided?

(3) Is the institution worked with a school of general education and if so what is the time devoted to this education?

(4) Are any and if so how many outsiders (other than Christians) admitted now? what have they learnt?

(5) Is the institution likely to be taken advantage of by the High school students? may an hour or so every day be made compulsory for the two highest classes will the Mission undertake to teach them without requiring any attendance at religious classes? (This matter should be reported upon after consultation with the H.D. master)

(6) What improvements in teaching will be introduced if the further help is granted?

(7) What is the building grant likely to be required?

2. It is further requested that the H.E.'s opinion in the matter of granting the requests of Rev. Rees may be furnished along with the report

From

H J BHABHA Esq Ma,
Inspector General of Education in Mysore

To

H V Narjundayya Esq Ma, BL,
Secretary to the Government of Mysore,
General and Revenue Departments
Bangalore

SIR,

With reference to the General Secretary's Docket No. 1976 dated 29th October 1903, I have the honour to forward for the information of Government a copy of letter dated 26th November 1903 from Rev D A Rees supplying all the information required in the above in connection with his application for an additional monthly grant of Rs 125 towards the pay of an European Superintendent of the Industrial School Tumkur. I recommend that Government may be so good as to sanction an increase of the monthly grant from Rs 40 to Rs 165 with effect from 1st July 1904 provided the services of a competent

European Superintendent on a salary of not less than 300 Rs are secured. An European Superintendent is likely to develope and improve the present Industrial School No building grant need be promised now as none was asked for in the original application

I have the honour to be,
Sir,
Your most obedient servant,
H.P. Bhabha
Inspector General.
2.1.0

From The Rev D. A Rees
General Superintendent of Wesleyan Missions
in Mysore & Nilgiris,
Bangalore

To H. J Bhabha Esq
Inspector General of Education in Mysore
Bangalore.

Dated Bangalore City 26th November 1903

Sir,

In reply to your letter No 3832/1162 dated 31-10-1903, I have the honour to reply to your questions in the order in which you have stated them

1 The subjects at present taught in the school are (1) Carpentry (2) Blacksmiths work (3) Brick laying (4) Ropemaking (5) Agriculture

2 The value of the tools at present in the school is about Rs 1000/-

3 The institution is worked in conjunction with a school of general education Boys up to the age of 14 or 15 years of age spend 3½ hours in industrial work & 4½ hours in school each day - Above that age they give their whole time to industrial work till they are sufficiently trained to leave & earn their own livelihood

4 The industrial school is open to all classes, but very few other than Christians have availed themselves of it

5 The proximity of the industrial school, to the High School makes it possible to carry out, without difficulty, any plan for giving the students a course of manual training, and I see no reason why one hour's work each day may not be made compulsory in the two highest classes of the High School No religious teaching is given in connection with the industrial classes

6 Drawing would at once be introduced as a compulsory subject. The present branches of work would be taught efficiently, and on scientific lines New industries such as, wheel-Wrights' work and brick making would probably be introduced. I should deprecate attempting too many branches of work at the outset. Our policy would be to confine our attention, at present, to those trades which are needed among the people, & seek to attain practical results rather than show. We should probably introduce improved methods of work and labour saving machinery, but only sparingly, as the object is to teach boys to be efficient on the lines in which they will have to work when they are alone

7 We should have to erect quarters for the Superintendent and enlarge our workshops. I shall apply later on for a building grant not exceeding Rs 5,000/-

I have the honour to be,

Sir,

Your most obedient servant,

(Signed) D A Rees

Sec. 1

Order thereon
No Q 4088/9 Ed dt 15-2-04

The Industrial School referred to in the above, is an appendage to the Mission Orphanage and at present has 30 pupils, all drawn from the Orphanage About 50 others, it is understood,

have left it with training
sufficient to enable them
to earn their livelihood.
The institution is said to
be open to the public; but
either through ignorance
of this fact, or from un-
willingness to associate with
Christian orphans, the children
of non-Christian Communities
have not, till now, availed
themselves of the advantages
it offers

2 The workshop, attached to the School
is a small one and its Curriculum
Comprises, Carpentry, blacksmiths
work and Rope-making. It is
Reported that it is run on
business principles and the methods
are much the same as those

obtaining in ordinary private workshops

3 The Museum now propose to import a properly qualified European Superintendent and to develop the School and its usefulness by the introduction of improved methods. To this end they apply for a grant of Rs 125 a month in addition to the monthly grant of Rs 60 now being given The pay proposed to be given to the Superintendent is Rs 300 The I G of Fds is of opinion that the additional grant applied for may be sanctioned The Museum undertake, in

the event of the help sought
for being granted to admit
applicants of all classes
freely into the School and to
give them skilled training,
and further to give the Students
of the Govt High School in
a separate suitable building
such elementary instruction
in the Subjects taught in
the Industrial School as
may be of use to them
in after-life

4 The Govt of H H
the Maharaja of Mysore are
of opinion that much good
will result both to the
inmates of the orphanage
and to the public by the
expansion of ~~its usefulness~~ the Industrial School

in the manner proposed
They further are of opinion that
to induce the non-christian
Communities to interest them-
selves in the Scheme and to
give their boys the benefit
of the advantages it offers, it
is desirable to appoint a
Committee of Visitors con-
sisting of the Dy Commr
of the District, the Head
Master of the Govt High
School, the Executive Engineer
of the Division and two
leading non-official
native gentlemen of the
Station, and that the
Mission should not only
afford such Committee of-

Visitors every opportunity
of watching the progress
of the institution but
also give to them suggestions
for its improvement, its
best ~~consideration~~ attention, without
prejudice to ~~its~~ the management of the School,
which will of course rest
with the Mission.

5 Subject to the ~~formal~~ written acceptance by the
Several conditions specified Mission of the
above the Govt of H H
the Maharaja of Mysore are
pleased to direct that
the additional grant of
Rs 125 a month ~~be promised~~ available for
to the Mission with effect
from 1st July 1904, the necessary
provision being excluded by

the I gl on the Budget
Estimates for 1904-5

6 The I gl will submit

the Maharaja of Mysore

Read —

Letter No 7664/279 dated the 18th February 1904 from the Inspr Genl of Schs in Mysore submitting for sanction a Revised Scale of Establishment for the Hindu Arya Balika Pathasala at Maddagere

Order thereon No 4507-8 Dt 12-3-1904

In Govt Proc No G 4058-9 Dt. the 13th February 1904 the hereunto noted Scale of Establishment was sanctioned for the Hindu Arya Balika Pathasala at Maddagere with effect from 1st July 1904

×		
1st Master	Rs	12—
2nd Master		9—
do	—	7-8
Conductress		4—
Contingencies		—8
Total	Rs	33—

The Dpt of Schs with a View to make the Scale of Establishment of the School conform with that prevailing

in other Govt Girls' Schools and to secure uniformity and facility in Budget accounts, proposes that the Scale be revised as follows –

	Rs
Head Master ——	12–
Asstt Master ——	8–
do ——	7–
Conductress ——	4–
Contingencies ——	1–
Total	33–

3) The revised Scale proposed does not involve any additional cost and it is accordingly sanctioned
